ASIA

35%

- NORTH AMERICA 5%
- AFRICA 4%
- SOUTH AMERICA 2%
- OCEANIA 1%

Prompt rewards

55% OF VULNERABILITIES ARE REWARDED **in less than a week** AFTER THEIR SUBMISSION

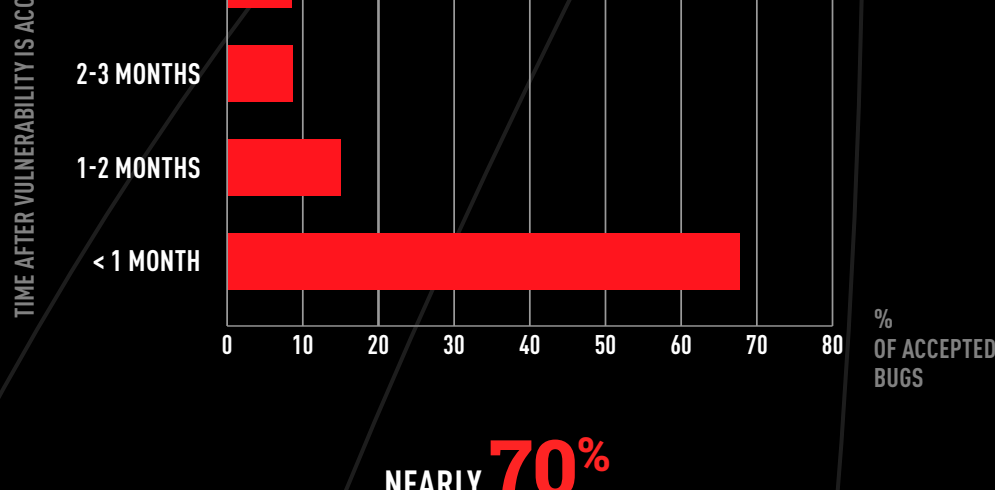

87% OF VULNERABILITIES ARE REWARDED **within 28 days** AFTER THEIR SUBMISSION

75% OF VULNERABILITIES ARE PAID **in less than 24 hours** AFTER BEING ACCEPTED

An ever shortening time-to-resolution

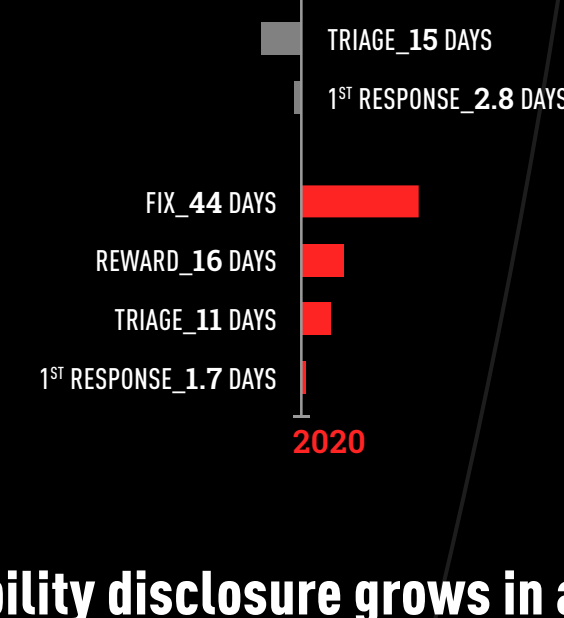

Fast remediation reduces the risk of a security incident

NEARLY **70%** OF ALL VULNERABILITIES IN 2020 HAVE BEEN **remediated** WITHIN **28 days** FOLLOWING THEIR ACCEPTANCE

Positive impact of Bug Bounty

The timespan between identification and fix has shortened significantly in 2020, dropping from 109 days on average in 2019 to 44 days in 2020

Vulnerability disclosure grows in adoption

AT THE END OF 2020, FIREBOUNTY.COM COUNTED CLOSE TO **12,000 vulnerability disclosure methods**

- BUG BOUNTY **684**
- STANDALONE VDP **186**
- SECURITY.TXT **11,102**

Our Chrome and Firefox browser plugin makes vulnerability disclosure policies easy to find

2021 will see a global adoption of vulnerability disclosure policies across all industries: **vulnerability reduction goes mainstream**
